07/03/19	64	Log classes and decomposition characteristics for assessment of		Cited		

		fallen timber (Hunter Jr., 2011).				

**Fully referenced third party copyright material (i.e. material that you didn't create or for which you are not the copyright owner) such as images, diagrams, music and substantial quotes can be included in your thesis through to submission and examination. However, before your thesis can be made openly accessible online in e-publications@UNE, you will need permission from the copyright owner for each item to include their work.*

When you submit your thesis to Research Services, the Copyright Compliance Table should be included as a record of any third party copyright material content reproduced in your thesis, and the permissions you have sought.

*It is important to seek permission for any third party copyright material you want to include in your thesis **before** you submit your thesis for examination so it can be openly accessible in UNE's institutional repository <https://e-publications.une.edu.au>. Examples of copyright permission request forms can be found in Appendix 1 of 'Copyright Guide for Research Students: What you need to know about copyright before depositing your electronic thesis in an online repository' <http://www.oaklaw.qut.edu.au/files/Copyright%20Guide%20for%20Research%20Students.pdf>*

A copy of the Copyright Compliance Table and an example of its use is available at <http://www.une.edu.au/research/res-services/hdr/submission-examination>
