Good afternoon Glenda,

We can certainly digitise your thesis and make it available via RUNE.

To confirm, would you like to make the thesis freely accessible to anybody via RUNE? While the Right of Access form submitted alongside the thesis allows free availability for copy, Open Access was not a consideration at the time and therefore we must obtain explicit permission from you as the copyright holder before we make it available to the public. Alternatively, we can make information about the thesis openly available and the thesis itself can be made available individually upon request for research and study purposes.

Kind regards,
Andrew

Subject: Masters Thesis

Dear Librarian,

My name is **Glenda Jean ASHLEIGH**. I seek your assistance in relation to the Masters Thesis submitted and accepted by the University of New England in 1991 under my then name of **GLENDA JEAN HUNTER**.

1. I was awarded a **Master of Education** of the University of New England with 1st class honours and graduated in 1992.
2. The title is: "An Examination of Some Individual Differences in Information Processing, Personality and Motivation with respect to Some Dimensions of Spatial Thinking or Problem Solving in TAFE College Students". (Australia).
3. An unbound paper copy of the thesis is contained in the archives of the University of New England. At the time, no electronic version was required to be submitted.
4. I do not have an electronic copy of the Thesis.

I would appreciate your assistance to include this Thesis in RUNE.

I am aware of the requirements regarding copyright having been through this process with respect to the Thesis I submitted in 2001 under the name of GLENDA JEAN ASHLEIGH, in fulfilment of the Doctor of Philosophy degree awarded to me by the University of New England in 2002.

I look forward to your assistance.

Kind regards
