

**University of New England
Research Services**

STATEMENT OF AUTHORSHIP

On each occasion that research is made public the forms 'Statement of Authorship' and 'Location of Data' must be filled out, signed and lodged with the Head of the Department of which the principal researcher is a member. If, for any reason, one or more co-authors are unavailable or otherwise unable to sign the statements, the Head of Department may sign on their behalf, noting the reason for their unavailability. Heads of Departments must keep copies of these statements in departmental files.

Definition of Authorship

Authorship is defined as substantial participation, where all the following conditions are met:

- (a) *conception and design, or analysis and interpretation of data, and*
- (b) *drafting the article or revising it critically for important intellectual content, and*
- (c) *final approval of the version to be published.*

An author's role in a research output must be sufficient for that person to take public responsibility for at least part of the output in that person's area of expertise. No person who is an author, consistent with this definition, must be excluded as an author without their permission in writing.

Responsible or principal author(s): Galia Urquhart

School(s) School of Education

Institution(s): University of New England

Authorship (refer to definition given above)

The authors of the paper entitled: The role of early childhood centre directors in facilitating and promoting university teaching and research in on campus early childhood centres
submitted to: University of New England
