

**The Relationship Between the Process of Development and
Income Distribution in South Korea 1961 to 1993**

By

Jose Tomas Zurita Cabrales

A dissertation submitted in partial fulfilment of the requirements of the
degree of Master of Economics of the University of New England

Armidale N.S.W.

Australia

December 1996

Declaration

I declare that no part of this dissertation has been accepted or presented for the award of any other degree or diploma by any university, and that to the best of my knowledge, the dissertation contains no material previously published or written by any other person, except where due reference is given to that author by direct credit in the text or bibliography.

Jose Tomas Zurita Cabrales

Acknowledgments

I am grateful to my parents for providing the financial support and encouragement during my course, and to Dr. Abul Shamsuddin for the expert and correct supervision of this dissertation.

Table of Contents

Table of Contents	iv
List of Tables	vi
List of Figures	viii
1 Introduction	1
1.1. Background-----	1
1.2. Aims and objectives-----	4
1.3. Outlines/Overview-----	4
2 Literature Review	6
2.1. Introduction-----	6
2.2. Kuznets' hypothesis-----	7
2.2.1. Cross Sectional Studies-----	8
2.2.2. Time Series Studies-----	12
2.3. Intersectoral Shifts-----	14
2.4. International Trade-----	16
2.5. The role of government-----	20
2.6. The rate of economic growth-----	21
2.7. Education-----	23
2.8. Demographic factors-----	25
2.9. Conclusions-----	27
3 The Korean Development Experience	30
3.1. Introduction-----	30
3.2. Korean Economy in Historical Perspective-----	30
3.3 The Recent Korean Development Experience-----	32
3.4. Income Distribution-----	37
3.5. Korea in the World Economy-----	40
3.6. Conclusions-----	44

4	Methodology of the study	46
	4.1. Introduction-----	46
	4.2. Conceptual framework-----	46
	4.3. The empirical model-----	51
	4.3.1. The dependent variable-----	51
	4.3.2. The Kuznets' hypothesis-----	52
	4.3.3. Intersectoral Shifts-----	56
	4.3.4. The role of government-----	58
	4.3.5. International Trade-----	59
	4.3.6. Education-----	62
	4.3.7. The rate of economic growth-----	63
	4.3.8. Demographic factors-----	63
	4.4. The Data-----	64
	4.6. Limitations of the methodology and data-----	67
5	Results of the empirical analysis	69
	5.1. Introduction	69
	5.2. Kuznets' hypothesis-----	69
	5.3 Intersectoral shifts-----	75
	5.4. The role of government-----	79
	5.5. International Trade-----	84
	5.6. Education-----	92
	5.7. Conclusions-----	97
6	Conclusions	98
	Bibliography	103
	Appendix A	114
	Appendix B	117
